

S9
E-BIKE

BITBIKE

Ease of riding, style and functionality distinguish the S9 electric pedal assisted bike. Thanks to the 36V-8Ah removable battery you can travel up to 55km in assisted mode, allowing you to tackle not only city routes but to aim for cycle tourism. Combining the accessibility and innovation you desire, the S9 can guarantee you a comfortable and safe ride in every situation, thanks to the robust 20" wheels and the 6-speed gearbox, the 250W 3-speed brushless motor, which can be activated from the control on the handlebar, able to make you reach a maximum speed of 25 km / h. It is characterized by a modern design, with the folding frame in magnesium alloy, the powerful LED light and the LCD display that allows you to choose between 3 modes driving and have the battery status under control. Practical and fast, it folds up with a gesture to be loaded on public transport or by car.

CARATTERISTICHE

MODEL: S9

WHEELS DIAMETER: 20"

FRAME MATERIAL: MAGNESIUM

FOLDABLE FRAME: YES

REMOVABLE BATTERY: YES

BATTERY TYPE: LG LITHIUM CELL

BATTERY CAPACITY: 36V / 7.8Ah

ENGINE: 36V 250W / IPX4

SENSOR SPEED: YES

SPEED SENSOR MODE: 3 STEP

GEAR SHIMANO: 6 SPEED

BRAKE: FRONT AND REAR DISC

MAX SPEED: 25KMH

RANGE: 45/50KM

MAX TRANSPORTABLE WEIGHT: 120KG

BIKE WEIGHT: 19,5KG

Lithium batteries: on the market today they are the most used ones because they are small and lighter, with longer life. The standard of electric batteries is 36 volts and 7.8 Ah, this capacity guarantees a range of about 45/50 km, which can vary according to the effort of the cyclist on the pedals and the level of power selection on the handlebar control. This bike model has a removable battery with anti-theft key slot.

Everything under control: A functional, complete and legible LCD dashboard allows you to keep under control every function, from speed to travel time, from partial to total kilometers, from the remaining battery charge to the selection of the pedal assistance steps.

Featuring six-speed transmission, rear derailleur, Shimano Tourney TZ has been designed with e-bike lovers in mind. This gearbox installed on the S9 allows us, in fact, to perfectly adapt the selected ratios to the slope of the road and to our physical condition. In this way, it will be really simple to adjust the pedaling power by optimizing it to the path we are about to take.

The peculiarity of this bike is that it has a folding frame, with few and easy operations and without the use of tools it is possible to fold the bike. This offers the possibility of transporting the bicycle occupying a small space such as in the trunk of the car or the locker of a boat.
